The "zaf_admbnda_adm0_2016SADB_OCHA" and "zaf_admbnda_adm1_2016SADB_OCHA" KML files were created from generalized (0.001-degree tolerance) versions of the shapefiles due to the original shapefiles' large number of vertices. The shapefiles included in the dataset are the originals.

South Africa is one of only two countries in the world that contains an independent sovereign enclave – Lesotho.
